South Africa May Return Colony to German Control

Suggestion For Southwest Africa Heard as Dominion Premiers Hold Conversations With British Cabinet

Administration Costs Are Great

Canadian Press and Associated Press

London, May 9.—Authoritative quarters said to-day the Union of South Africa is ready and willing to have Southwest Africa, formerly a German colony, returned to the Reich.

That revelation came as representatives of the dominions and colonies resumed their conversations with members of the British cabinet on questions of Britain's foreign policy.

Sir John Simon, Foreign Secretary, has already given the empire states men full account of his recent visit to Berlin, during which Adolf Hitler, among other things, insisted Germany's right to colonies must be recognized.

Premiers' Views

It was confidently expected the views of Rt. Hon. J. R. M. Harting, Prime Minister of the Union of South Africa, would be sought in the matter of giving back to Germany some of the territory she lost in the Great War, because the Reich's greatest losses were in Africa.

Mr. Harting, it was understood, was prepared to tell Sir John Simon and Prime Minister Ramsay MacDonald that his government would approve the step.

Other dominions, however, were awaiting news from Germany before they would be willing to return the day when Germany would be coming back to South Africa as a colonial power.

The authoritative quarters, however, emphasized there could be no official endorsement of policy as to Southwest Africa, which had been made an integral part of the Union of South Africa. The government settlement, until Germany specifically raised the question regarding Southwest Africa.

The Imperial Conference of 1920 precluded South Africa's taking any public stand on this question without expressing Britain's opportunity to express its views. It was pointed out.

MAX BAER HURT AT REHEARSAL

Associated Press

Ashley Park, N.J., May 9.—Max Baer, heavyweight boxing champion, was injured to-day while rehearsing for a radio broadcast programme in a hotel here. He was taken to a hospital.

Details of the accident were not immediately available, but a physician at the hospital said Baer had received a powder burn over the heart from a blank cartridge. He said the champion's condition was not believed to be serious, but that Baer had not yet been removed from the operating room.

Lumber Strike In U.S. Is Spreading

To-day Total of Men Out in Washington and Oregon Estimated at 20,000

Associated Press

Seattle, May 9.—The big United States northwest lumber strike continues to-day with more than 20,000 men out.

Negotiations were under way at Longview to avoid a tie-up there of the large Long-Bell and Weyerhaeuser mills. Longview is the only important lumber centre where mills are still operating.

However, between 300 and 500 loggers of the Long-Bell Company at Hyderwood walked out to-day when they had voted to stay on the job.

The Longview union men yesterday evening and officials advised the men to "stay on the job" until further notice.

Spokane saw an additional 1,200 men idle, with its four plywood manufacturing plants shut down. All major retail lumber yards were also to be closed during the day. President Norman L. Lang of the Thomas Log and Timber Workers union was absent.

About 600 men in two plywood plants at Aberdeen were "out" to-day after a strike of 200 for 24 hours yesterday evening.

Leading a durbar due to the situation was the spreading of the lumber

RUSSIAN SAILORS TO SPEAK ENGLISH

Canadian Press
Moscow, May 9.—In recognition of the importance of the English language, the government announced to-day all officers and seamen of its commercial fleet must have a knowledge of that language.

RELIEF CAMPS STRAW VOTE

Vancouver Strikers Hope For 100,000 Votes For Abolition in Drive Friday

Canadian Press
Vancouver, May 9.—The action committee of the relief camp strikers has announced completion of arrangements for a city-wide straw vote on abolition of relief camps to be held to-morrow.

Poling has been systematically organized. More than eighty booths are to be erected on street corners in the downtown section and the residential areas have been blocked out and squads of relief camp strikers and sympathizers will undertake a house-to-house canvass for the ballot of housewives and others. It is hoped to obtain 100,000 votes in favour of abolition.

Citizens will also be asked to sign a petition asking the City Council to supply relief to the services of the relief camps.

Two Girls Are Accused of Theft

Canadian Press
Vancouver, May 9.—Two thirteen-year-old girls to-day were being held for investigation by the women's division of the city police department and justice.

The two were picked up by police yesterday evening, suspected of stealing a bicycle and also of receiving an order of fruit and groceries from a store by means of a note to which the name of a neighbor had been forged.

ACT TO SAVE U.S. \$30,000,000 YEARLY

Associated Press
Washington, May 9.—The United States House of Representatives ways and means committee to-day approved the treasury's bill designed to strengthen federal laws against foreign smugglers.

Secretary Harry Morgenthau has estimated that with the new bill the treasury will be able to save about \$20,000,000 annually in revenue that is lost through evasion of customs and liquor taxes.

KING AND QUEEN IN JUBILEE PROCESSION

First picture of the royal couple in the Jubilee procession, seen in London to-night. The photo, taken by the King's御用写真家 Mr. Frank Hurley, was reduced from the Atlantic and from New York to the Pacific Coast, traveling the rest of the way to Victoria by plane and streamer.

King and Parliament In Unique Event In Capital of Britain

George V, Receiving Silver Jubilee Addresses, Creates Precedent By Meeting M.P.'s and Lords Assembled Together in Westminster Hall

Event Attended By Dominion Premiers

By GEORGE HAMILTON
Canadian Press Staff Writer

London, May 9.—The King came to-day to Westminster. In the Great Hall of William Rufus, George V and Queen Mary received addresses of congratulation from the peers and commoners in joint session assembled on the silver jubilee of the accession.

It was a scene of quiet dignity rather than of pageantry. There were no heralds or armed men.

Outside alone entered the King and Queen from Buckingham Palace to the Palace of Westminster.

Yet as Their Majesties sat on a raised dais, with members of the royal family about them, and dominion prime ministers, Indian princes, judges, members of the House of Lords and members of the Commons crowding the vast stone Westminster Hall, one felt a new and closer relationship between crown and parliament.

The prosecution alleged the Duke took certain pieces of jewelry, not his property, and pawned them. The jewels were part of the estate of his late mother, held by trustees, and the trust had the right to have the use of the property, but not ownership.

It was alleged he obtained the jewelry from the trustees, giving them a receipt from the Duchess, and subsequently obtained loans on it, signing an acknowledgment the jewelry was his property and he had a right to it.

The Duke is the father of Lord Edward Montagu, who formerly had a ranch in Alberta and lived for a time at Victoria, B.C.

THE KING SPEAKS ON AIR TO-NIGHT

The King will be heard over the Canadian Radio Commission's network from 2 to 3.30 a.m. P.T.T. Many stations will be addressed by the King and later in connection with the Jubilee celebrations.

The broadcast will be brought to the Canadian network by short wave from the BBC in London, and will be heard here, as far as is known at present, over station CBCV, Vancouver.

Associated Press
Tokio, May 9.—Nippon (Japan) news agency reports from Tokio that eight persons were killed and 100 injured when two trains on the Chinese Eastern Railway collided near Shihliouhotzu, 120 miles south-east of Harbin.

DIME LETTER FLOOD LOOMS

More Reach Victoria and Some Call for as High as Five Dollars

The arrival in Victoria of the dime-chain letter craze which has swept the United States and created a problem for postal authorities there has not yet created a problem for the Victoria Post Office staff.

"We have heard that some of the chain letters have reached Victoria," said Postmaster G. E. Gardner this morning. "But so far there has been no appreciable difference in the mail. It is a little heavier than usual at present on account of Jubilee messages."

"When these chains get going, however, they grow rapidly and the mail soon piles up," Mr. Gardner added. "So there is no telling what may happen."

While the arrival of the first chain letters and the names of the recipients were news a couple of days ago, the swift multiplication, which occurs when each recipient sends out five with the five others sending out five each ad infinitum, has changed the picture.

Several varieties of the same scheme are now circulating originating from Washington, California, Colorado and other states.

Hundreds in Victoria have received dime letters and as they follow the instructions of eliminating the top name to which they send a dime and add their own name at the bottom, the U.S. postmen will probably be soon overwhelmed by the volume of mail.

Mr. John is a native son and attended Burnside and George Jay public schools, Victoria High School and Victoria College. He took his B.A. degree in 1929, graduating with honors in history. The following year he took the teacher training course at the university, an extensive course in the study of law, passing his first intermediate examination in January, 1931. He did not continue in that profession but accepted a teaching position as history instructor at Prince Rupert High School. He relinquished that post last August to concentrate on his M.A.

It is likely that thousands of letters will be circulating between Canada and the United States.

(Turn to Page 2, Col. 2)

EIGHT DIE IN TRAIN CRASH

Associated Press
Tokio, May 9.—Nippon (Japan) news agency reports from Tokio that eight persons were killed and 100 injured when two trains on the Chinese Eastern Railway collided near Shihliouhotzu, 120 miles south-east of Harbin.

There was no equity or justice in the present system," said the premier. "Many from foreign countries are here, and we have to pay the same tax as the Chinese. I don't see anything wrong in applying one provincial income tax and substituting municipalities for money they lost."

MASTER OF ARTS

—Photo by Robert P. Johns

Mr. Johns is the son of the late ex-alderman Alton Johns and Mrs. Johns, 1375 Richardson Street, receives his M.A. degree in Vancouver to-day at the U.C.C. conference.

He took the subject "British Columbia's Campaign for Better Terms, 1917-1927," a theme which is much to the forefront in the province just now.

It was the first detailed historical study made of the campaign and members of the provincial government have expressed much interest in the 100,000-word document presented by Mr. Johns.

"We have heard that some of the chain letters have reached Victoria," said Postmaster G. E. Gardner this morning. "But so far there has been no appreciable difference in the mail. It is a little heavier than usual at present on account of Jubilee messages."

"When these chains get going, however, they grow rapidly and the mail soon piles up," Mr. Gardner added. "So there is no telling what may happen."

While the arrival of the first chain letters and the names of the recipients were news a couple of days ago, the swift multiplication, which occurs when each recipient sends out five with the five others sending out five each ad infinitum, has changed the picture.

Several varieties of the same scheme are now circulating originating from Washington, California, Colorado and other states.

Hundreds in Victoria have received dime letters and as they follow the instructions of eliminating the top name to which they send a dime and add their own name at the bottom, the U.S. postmen will probably be soon overwhelmed by the volume of mail.

It is likely that thousands of letters will be circulating between Canada and the United States.

INCOME TAX IN ONTARIO URGED

Canadian Press
Toronto, May 9.—Implementation of a provincial income tax in Ontario to replace the federal tax and to give municipalities for revenue loss as a consequence to-day by Francis Mitchell P. Hopkins in an address before the Ontario division of the Canadian Manufacturers' Association.

"There is no equity or justice in the present system," said the premier. "Many from foreign countries are here, and we have to pay the same tax as the Chinese. I don't see anything wrong in applying one provincial income tax and substituting municipalities for money they lost."

(Turn to Page 2, Col. 2)

WITNESSES NUMEROUS

Canadian Press
Vancouver, May 9.—Hearing of striking Corbin, B.C., miners will take days yet

Associated Press
Vancouver, May 9.—Trial of striking miners arrested during the April 27 riot here, continued to-day.

At the several court sessions held to date 110 witnesses have testified, and it will be several days, if not weeks, before all the miners are interviewed.

Some of the men have been charged with assault; others will appear on vagrancy charges, and some accused of interfering with police officers.

Charged with assault, John Queen was given a hearing yesterday. Police witness identified Queen as the man who started the riot.

Queen, 32, was given a six-month sentence.

Twenty-four other miners who were

were given shorter sentences.

When trial of miners began, a witness and was given a warrant and bailed.

In all cases, judgment has been reserved until the end of the sessions.

United Kingdom Firms Need Permits To Ship Abroad; Defences Built

SHIP ON REEF BREAKING UP

Canadian Press
Gibsons, B.C., May 9.—An American-owned oil vessel bound for the British coal-carrying freighter Langridge was breaking up on the rock-bound Cape Breton coast near here to-day after Captain J. R. Davies and his crew of twenty-six had transferred to the Canadian government steamer St. Malo.

WINNIPEG FIRE CAUSES DEATH

Canadian Press
Winnipeg, May 9.—One man was fatally injured and three others were forced to flee in night clothing when fire of undetermined origin early to-day destroyed the Southwood Golf Club's house here with an estimated loss of \$25,000.

Crushed under a falling telephone pole, Robert McNaughton, fifty-four, died at a hospital some time later. McNaughton, 42, was at the time disconnecting service wires to the clubhouse when it snapped at 11 p.m.

A crew of forty-five men was quickly organized by Fire Ranger W. P. Watson, who is in charge of the fighting. They worked in shifts all night. Varying winds delayed some fire that the Royal Canadian Air Force had been requested to drop.

A crew of forty-five men was quickly organized by Fire Ranger W. P. Watson, who is in charge of the fighting. They worked in shifts all night. Varying winds delayed some fire that the Royal Canadian Air Force had been requested to drop.

outbreak of another war. South African expressing the view the situation would be injurious to the Liberal.

ADMINISTRATION COSTLY

Aside from the fact the white population of South Africa is still mainly German, informed quarters see these reasons why the Union would favor its return to Germany:

1. The heavy expense of its administration, running into several million pounds sterling annually.

2. Fears caused by the French proposal of arming African natives for use in Europe in the event of the

war.

3. The heavy expense of its administration, running into several million pounds sterling annually.

4. The heavy expense of its administration, running into several million pounds sterling annually.

5. The belief that Germany, in view of the strong she is now placing on Aryans and racial superiority, would allow such arming of the natives, her return to Southwest Africa thus providing a buffer state against France and Germany to the north.

6. The fact that the Afrikaners do not want the job of keeping Southwest Africa's natives under control, since they feel they have their hands full with about four times as many natives in the Union as whites.

WOMAN WRITER DIES IN EAST

Toronto, May 9 (Canadian Press)—Mrs. J. W. P. MacLennan, seventy-seven, internationally known as "Queen" and dear of Canadian women writers, died to-day after a brief illness resulting from a stroke. Born here and educated here and in Montreal, she began her literary career at sixteen when she wrote articles that attracted much attention, specializing in poetry, music and reviews. As recently as married J. W. F. Marquis, musician and painter.

"World's G. Payette"

OUR THANKS,
MANY TIMES

Mrs. W., who asks us not to give her name, writes a letter which we are more than glad to get. Many thanks. She says:

"I prefer Pacific Milk for it makes such nice cakes and puddings with less butter and eggs and my children are very fond of it upon a dish of jelly. I always use it in tea and in salad dressing."

Mrs. W.'s home is in the heart of British Columbia.

PACIFIC MILK

Many Attend Odum Funeral

Citizens in Varied Walks of Life Pay Tribute to Late Vancouver Professor

Associated Press

Vancouver, May 9—Citizens in many walks of life yesterday paid tribute to the memory of Prof. Edward Odum, educator, lecturer and financier, when a funeral service was conducted in the Mount Pleasant Undertaking Company's chapel.

Officiating clergymen were Rev. Dr. S. Fox, Rev. J. Williams Ogden and Rev. W. E. Galloway. Interment took place in the Mountain View Cemetery. Honorary pallbearers were: Major G. O. McGee, M.P.P.; Ald. C. E. Tisdall; J. J. Miller, Civic Speaker; Mr. J. McColl and former Judge David Grant.

The active pallbearers were: George Bell, William Savage, J. W. Parker, George Hay, ex-Ald. John Bennett and Herbert McGowan.

Funeral tributes included a wreath from the Vancouver city council, which thus honored a former alderman.

At a meeting Tuesday evening, the Grandview Ratepayers' Association formed thirty years ago by Prof. Odum, passed a standing vote of condolence to the bereaved family.

APRIL RAINFALL REPORTED NORMAL

Associated Press

Toronto, May 9—Rainfall throughout Canada was generally normal or better during April, rising to almost twice the normal precipitation in southeastern Alberta, according to a report issued by A. J. Connor, climatologist of the Dominion meteorological service here. Temperatures ranged from a few degrees below to just above normal in most parts of the Dominion.

Consequently kept British Columbia rather dry last month and a sudden warm spell may cause river floods because of the backward spring and heavy snow, the report states.

Except in the Peace River district, where the excess over normal was only 8 per cent, Alberta received substantially greater precipitation than usual.

**VICTIMS OF AUTO ACCIDENT**

When their auto was forced off a road in San Diego County, Calif., by another car a few days ago and fell down a steep bank among boulders, John Coogan, left, and Tom Durkin, right, juvenile movie actors, lost their lives, as did two others. Jackie Coogan, one of the elder Coogans, was painfully injured.

Associated Press

Hollywood, Calif., May 9—Arising from a hospital bed, Jackie Coogan, youthful screen actor, yesterday brushed aside the advice of his physicians and attended the funeral service for his father, John Coogan, killed with three others in an automobile crash in which the actor was seriously injured.

He was streaming blood, young Coogan's face still painful, got out of an automobile at the entrance of the Church of the Good Shepherd in Beverly Hills, and walked to his mother's side. Putting his arms about her, he kissed her.

After the service Jackie returned to the hospital. He did not see the burial, which was in Calvary Cemetery.

The accident which cost the elder Coogan his life also killed Jackie's close friend, Trent "Junior" Durkin, also a young actor; Clarence Jones, manager of the Coogan Ranch, and Robert Horner, screen and radio writer.

Man Advised To End Lottery Habit

Associated Press

Pittsfield, Mass., May 9—Charles E. Plankley, twenty-three, of Dalton, has been sentenced to open a savings account.

Plankley was in district court charged with having lottery tickets in his possession. He told Judge Charles L. Hibbard he spent \$6 a week on such tickets, but that he seldom won.

The judge placed him on probation on condition that he deposit \$10 in savings bank and not draw on it without permission of the probation officer.

"This I hope will be the beginning of a sizeable savings account," commented the judge.

WATER FIGURES

Chicago, May 9 (Associated Press)—The Saturday night bath myth was washed down the drain to-day. The Chicago water department disclosed the Saturday water consumption averaged about 20,000,000 gallons under the withdrawal on other days of the week.

ALBERTA TO SHOW THE WAY?

MAJOR C. H. DOUGLAS, OF THE "Social Credit" plan, has arrived in Canada on his way to Edmonton to act as adviser to the Alberta government on his particular formula for the cure of our economic troubles. He has entered into a contract with the government at Edmonton for two years, regardless of what party may be elected in the approaching provincial election. What we are interested in more especially, however, is how he will explain and make clear to the electors of our neighboring province on the east of the Rockies just how "social credit" is expected to work—if it shall be given a chance in Alberta.

When Major Douglas "explained" his system in Victoria, we had a sort of feeling that most of the people who heard it thought it was "as clear as mud." But we shall have to revise this opinion somewhat, because in Ottawa the other day he put the whole plan, to use his own language, "in a word." He said his system is to "provide the means whereby goods and services, which are to-day in abundance throughout the world, may be passed over to the world's population, waiting and anxious to receive them, but without sufficient money to purchase them. And to provide that means without any violent modification of existing administrative social or political systems."

What we would like Major Douglas to explain, however, now that he has explained his system "in a word," is also to explain further how he really proposes to bring the people who want goods and services into practical touch with those who have goods and services to sell so that all will be quite happy and contented. And what do we use for money?

All will agree with Major Douglas that statesmanship the world over has not tackled the vital spot in the depression—that of the distribution of surplus products in a world of plenty in which millions and millions of people are going hungry as the days go by. But perhaps the province of Alberta will show the rest of the world the way out of its most perplexing dilemma.

ADVANCING WITH SCIENCE

TRYING TO SPECULATE ON WHAT the future is going to be like is always interesting, and it is especially attractive if you are more or less dissatisfied with the present. And when you are doing your figuring, you can hardly do better than get a chance to help you.

For an imaginative chemist can see things that would stump a Jules Verne or an H. G. Wells. He can show us a future that is like a magic wonderland; and—which is more to the point—he can also persuade us that he knows what he is talking about.

Thomas Midgley Jr., chairman of the board of the American Chemical Society, took a little flier into the future at a recent convention of chemists in New York. He foresees some startling things. A century from now, he predicted, the discovery of new sources of energy will have made inter-planetary travel possible. It will also have revolutionized industry to such extent that two hours will be the maximum length of the working day. Such maladies as cancer, influenza, and epidemic diseases generally will be abolished.

This, he added, was only a starter. We shall be raising chickens the size of pigs and they will be laying eggs the size of footballs. People will not go to war any more, because defensive weapons will be strong enough to make any offensive impossible.

All this adds up to something remarkably like a pipe dream. But the odd thing about it is that none of these predictions is impossible. A century from now Mr. Midgley may look like an exceedingly conservative and cautious prophet. In the material world, the race is able to do just about anything that it can imagine.

And that emphasizes the strange new condition under which the race is laboring these days. Its greatest problems are no longer connected with the struggle to master the physical environment; they have to do with the intangibles—things like economics, social organizations, and international relations.

We know, nowadays, that eventually we shall abolish disease and hunger and all manner of scarcity, and that we can equip ourselves with almost any kind of mechanical gadget that seems desirable. The big question is what we are going to do with ourselves after we make those advances.

Shall we learn how to get along together so that they all make the life of the average human being happier, freer and richer? Can we adjust ourselves to an age in which the only problem will be the problem of human relationships?

HOPE FOR THE NRA

A STRONG MAJORITY IN FAVOR OF extending the NRA exists in the United States Senate, if an informal poll recently conducted by the United Press is a sound indication.

According to this poll, sixty-four Senators favor extension, twenty-three oppose it, and eight are in doubt.

A majority of that size would seem to make it certain that the NRA will not pass out of existence on June 16. The rub comes, however, in determining the exact form which the extended bill is to take. There are almost as many ideas on that point as there are senators, and some bitter argument can be expected before the bill reaches its final form.

Indeed, Congress as a whole will probably be doing very well to get the new bill in shape before the existing bill expires in mid-June. The job is extraordinarily complex; too much haste would be as harmful as not enough.

REMOVE THE TECHNICALITY

IT IS REPORTED FROM THE MAIN-land that a Conservative agent has been trying to strike off the Dominion voters' list the names of sixty or more war veterans resident at relief camps No. 205 and 206 at White Rock.

Notices of objections were received in the camp last Saturday. Each man is called upon to appear at the court of revision in Vancouver Centre on June 12 to show cause why his name should not be struck off. The Dominion Franchise Act does not recognize the National Defence camps as a domicile. Inmates must be registered in the constituency of their permanent homes. The chief electoral officer, however, granted permission to certain relief camps, among them 205 and 206.

The incident of camps 205 and 206 brings again to public attention the whole question of the franchise of the unemployed. As The Vancouver Sun points out, "the inquiry of the whole situation lies in the fact that the Bennett government refuses to recognize the relief camps as legal domiciles. Hence, the inmates of the camps, unless they can establish another domicile satisfactory to election officers, are shorn of their votes."

To quote our contemporary again: "It seems odd that the government should have been able to accept trenches in France as the legal domiciles of soldiers in the war while nothing can be done to find legal domiciles for our present soldiers of adversity."

It is the duty of the Bennett government, not only to see that every unemployed man has the franchise, but to make sure he has every reasonable facility for exercising it.

MARK TWAIN CENTENNIAL

To my mind he was the largest man of his time, both in the direct outcome of his work, and more important still, as an indirect force in an age of iron Philistinism. Later generations don't know their debt, of course, and they would be quite surprised if they did."

THUS RUDYARD KIPLING, THE BARD

of empire-builders, in a note to Dr. Nicholas Murray Butler, president of Columbia University, pays tribute to the distinguished American man of letters, humorist, sociologist, and critic of sham—Mark Twain.

This praise by Kipling was sent recently to Doctor Butler as chairman of the Mark Twain Centennial Committee, an honorary body of outstanding Americans formed to co-ordinate and sponsor commemorations to be held this year throughout the neighboring republic in honor of the birth, November 30, 1835, of Samuel Langhorne Clemens in the sleepy little town of Florida, Missouri.

President Roosevelt has accepted the honorary chairmanship of the committee. It includes Mark Twain's daughter, Mrs. Clara Clemens Gabrilowitch; the presidents of eight colleges and universities; the United States Senators from the three states with which Clemens was most closely associated—Missouri, New York and Connecticut; and the foremost figures in literature, drama, and other cultural groups.

A PROGRESSIVE MOVE

THIS SUMMER THE FEDERAL DEpartment of Mines at Ottawa will conduct a scientific search for gold-bearing geological formations in all parts of the Dominion. One million dollars are being appropriated for the search, which will be conducted by 180 prospecting parties headed by geologists and manned mainly by university students. About 900 men will be engaged in the work. In Nova Scotia twelve parties will work, in New Brunswick four, Quebec fifteen, Ontario thirty, Manitoba twenty, Saskatchewan forty, Alberta eight, British Columbia twenty, Northwest Territories ten, and Yukon five.

The aim is not actually to find the gold or stake it. The government is not competing with prospectors and other mining interests, but assisting them. The scientific parties will compile geological data to guide prospectors. None of the searchers will be allowed to stake claims.

It is worth noting, incidentally, that for the twelve months ended February 28, Canada produced 2,978,592 fine ounces of gold worth \$103,000,000, \$14,000,000 more than the previous year's 2,940,030 fine ounces brought. Having passed the United States, Canada now claims third place in gold production, following South Africa and Russia.

WHAT OTHER PAPERS SAY

THE CHAMPIONS
The Manchester Guardian

Nine years ago Huddersfield won the Football League championship for the third successive season; yesterday the Arsenal did the same thing. This record, jointly held by North and South, is really a monument to the genius of the greatest Manager ever seen in English football. The late Herbert Chapman made the Huddersfield team which for six years was never lower than third in the championship. Then he went to London to take charge of the Arsenal, and proceeded to do with the new club what he had done with the old. He set the whole football world talking by the money that he spent on players, but he saw to it that he got good value, and when he had bought the men he taught them to play his game. He was a master of publicity—it was characteristic of him that he designed for his team the handsomest colors of any league club—but he took good care that when he had attracted the crowds they saw fine football. More than that, they saw, and still see, what sometimes looks like almost magical football. More than one team this season have kept the ball in the Arsenal's half of the field for most of the game, and that international goalkeeper, only to find themselves well beaten at the end because for one or two moments the ball had been spirited away and into their own goal. Nobody even knows when the Arsenal are going to score, nor yet how often: three times this season they have got eight goals in a match. They are a great and fascinating team, and their triumph has been well deserved; one only wishes that the man who made them could have been there to see it.

A THOUGHT

Whichever is right gives to him that is in misery, and life unto the miser in soul—Job 31:22.

Hope is the best possession. Men are completely wretched but those who are without hope, and few are reduced so low as that.—Heseltine.

Loose Ends

Mrs. Noggin is comforting me who didn't get one—but I realize just the same—Vancouver gets inferior at times—and Mr. Hart has a lovely time.

BY BRUCE HUTCHISON

IT RANKLES

"WELL," said Mrs. Noggin as I gave her a lift to town this morning, "I see you ain't wearin' one of them medals what they gave to all the leading citizens on the King's Jubilee. You didn't get one, eh? No more did I. Not one in the whole family. That was hardly a family in town, but somebody in it got one. My boy—it's a plumber, you know, and proud—my boy says it's a distinction not to be give one, but I dunno. I kinda felt, when I seen the list of them that did—well, I kinda thought I might of bin in it.

"I reckon I done as much public service as most of 'em—raisin' hogs I bin for thirty year. I bechta not many of them got medala as raised hogs for thirty year. What's say in the world can get along all right without politicians and the like o' that, but what would life be like without hogs? I bet the King—God bless 'im, sir—would miss his hogs for breakfast more'n 'd miss the whole hollin' or them got his medala.

"This is your cue to say, 'They're quite easy after you've mastered them.' They'll probably get them in Vancouver, too, in time. All the big modern cities have them now—New York, Toronto, Victoria —

Try it some time. It never fails to remind one's civic pride.

NICE PLACE

I rise to nominate as Number One Victim of the Depression no other than our own John Hart, now camped on the doorstep at Ottawa and determined to fight it out on that line if it takes all summer. It always makes me laugh, a little sadly, when I hear the yokel complain about cabinet ministers joy-riding to Ottawa. I used to think myself that they might have a fairly good time, until I happened to be along with some of them, exactly a year ago. Now I know—that of all British Columbians the most miserable is he who joy-rides to Ottawa in the merry month of May.

In Ottawa their ability to waste other people's time amounts to genius. Their talent for delay is beyond belief. A British Columbia cabinet minister can be down there three weeks, giving interviews to the papers every morning and trying to get an appointment with the premier three times a day before Ottawa knows he's in the capital. Then it won't be in the least. Provincial cabinet ministers in Ottawa, looking for loans in May, are as common as bronze statues in frock coats on Parliament Hill, and just about as helpless.

See XMAS. British Columbia—such language about the Chinese—quading through six-centimes—such quickly paid. He walks up the hill and down again under the bursting maples. He sits in the gallery of the House all afternoon while some fellow drones on in French which no one seems to understand. He waits for hours in the ante-room of the Privy Council Chamber in the East Block, which is a stuffy place with absurd stained-glass windows like some of the older houses of the James Bay district. Occasionally Mr. Bennett rushes by as if he were going to a fire, or Mr. Rhodes wanders in as if he were going away from one, and Mr. Guthrie floats past in the clouds. At the end of two or three weeks or a month, Ottawa suddenly discovers that the British Columbian is in the capital. It welcomes him, even invites him to dinner. Then it leaves him half as much as he needs.

This is called joy-riding to Ottawa in the merry month of May. One's heart goes out to Mr. Hart.

QUADRUPLET IN RUSSIA

Moscow, May 9 (Canadian Press from Moscow).—Quadruplets, three boys and one girl, were born to-day to a family working on a collective farm at Krausnitsy, on the Volga. The mother, whose name is Chabanova, and the four babies are doing well.

TO THE EDITOR:—Notwithstanding war, rumors of war, financial chaos and whatnot, men, as in the days of Isaac Walton, still endeavor to pursue more peaceful and legitimate pastimes such as fishing. The latter being one of my many weaknesses, I am not without pleasure at a "humble" boat fishing, whether night or day, closed on account of scarcity of fish.

Two or three years ago I was asked by Mr. G. Bolton, representing fish conservation, if I would be good enough to suggest any remedies or ideas that would tend to better the fishing in general. Now I had a pet idea and immediately laid it before him. Following is his answer:—Inasmuch as we had to knowledge placed 500,000 fry in this particular water in the course of ten years, the results were negligible. It was then suggested we have specially constructed tanks made to be carried on trucks for the purpose of transferring full-grown trout to the streams where they were needed. Now in the watershed area are several lakes such as Jack Lake, Sooke Lake and the Highland Lakes, where thousands of fish live and die a natural death, the waters being prohibited for fishing purposes. What an asset! With permission of the City Father we could do more or a few men who understand netting, remove from the above lakes a goodly supply of full-grown trout, and carefully place them in tanks and immediately transfer them to the waters most in need of stocking. To think of it still gives me a thrill overnight we could do more than five thousand pinks half-fish in the lakes, and with care not to overdo it could do the same thing year after year and the results would be certain. A small seine net carefully handled by efficient men, I am sure, would bring about the desired results.

There would be then no need for closing waters, more men would get out license, the tourists could get what they came after and "our island" would have made another step in the right direction. The effects would be beneficial to the sporting goods stores and in many other ways help the local movement. And what I might be able to do with the odd extra trout once in a while.

Now "Jerry," do your stuff. I don't want my old "oh" closed for a few years and my fishing pole with cobwebs on it.

OFFERINGS FOR FRIDAY

ON THE BARGAIN HIGHWAY

ENGLISH TWEED COATS	Shown in the newest styles, with Raglan sleeves and silk lined. Grey, brown and tan mixtures. Sizes 34 to 44	\$15.95

Where People's Views

WARNING!

The Times urges its correspondents to restrict their contributions to 600 words. Henceforth it positively will not print communications which exceed that length.

These letters must be plainly written on one side of the paper only, and must be accompanied by the names and addresses of the writers, not necessarily for publication, but as a guarantee of good faith.

Letters will not be re-written for publication. If they are not legible no attempt will be made to read them.

Letters not used will not be returned to the writer.

Letters containing offensive personal reflections will not be printed.

These rules, which henceforth will be carried out absolutely, are designed as much for the protection of our patient readers as for that of the Times.

CAUTION!

The Times will not assume responsibility for the return to the writers of articles sent for publication in the Correspondence Column or anywhere else in this newspaper, whether they are published or not, or whether they have been specially edited.

FISHING

To the Editor:—Notwithstanding war, rumors of war, financial chaos and whatnot, men, as in the days of Isaac Walton, still endeavor to pursue more peaceful and legitimate pastimes such as fishing. The latter being one of my many weaknesses, I am not without pleasure at a "humble" boat fishing, whether night or day, closed on account of scarcity of fish.

Two or three years ago I was asked by Mr. G. Bolton, representing fish conservation, if I would be good enough to suggest any remedies or ideas that would tend to better the fishing in general. Now I had a pet idea and immediately laid it before him. Following is his answer:—Inasmuch as we had to knowledge placed 500,000 fry in this particular water in the course of ten years, the results were negligible. It was then suggested we have specially constructed tanks made to be carried on trucks for the purpose of transferring full-grown trout to the streams where they were needed. Now in the watershed area are several lakes such as Jack Lake, Sooke Lake and the Highland Lakes, where thousands of fish live and die a natural death, the waters being prohibited for fishing purposes. What an asset! With permission of the City Father we could do more or a few men who understand netting, remove from the above lakes a goodly supply of full-grown trout, and carefully place them in tanks and immediately transfer them to the waters most in need of stocking. PUBLICATIONS SHOW INCREASE

Montreal, May 8.—The 1935 Mc- Kim's Directory of Canadian Publications, just off the press, lists tangible evidence of improved business conditions, showing an increase of sixty-two new publications, as against an increase of only twenty in the previous year. Failures in the publication field decreased proportionately.

This 1935 edition of the directory is the twenty-eighth, the series having begun several years after the found-

ing of the A. Mc Kim Limited advertising agency, in 1899.

Recognized as an authentic gauntlet of advertising media throughout Canada, the directory gives extensive information about newspapers, magazines, trade papers and miscellaneous publications. Provinces, cities and towns where publications operate are all listed, together with populations, industries and outstanding characteristics of market areas.

Somewhat larger than its predecessor, this edition will replace last year's directory on the desks of manufacturers, publishers and all firms dealing in advertising in Canada. Enquiries concerning the publication should be addressed to any one of the six Mc Kim Advertising Agency offices at Montreal, Toronto, Winnipeg, Vancouver, Halifax or London, England.

tion should be addressed to any one

of the six Mc Kim Advertising

Agency offices at Montreal, Toronto,

Winnipeg, Vancouver, Halifax or

London, England.

Montreal, May 8.—The 1935 Mc- Kim's Directory of Canadian Publications, just off the press, lists tangible evidence of improved busi-

ness conditions, showing an increase of sixty-two new publications, as

against an increase of only twenty in the previous year. Failures in the

publication field decreased propor-

tionately.

This 1935 edition of the directory is the twenty-eighth, the series having begun several years after the found-

ing of the A. Mc Kim Limited advertising agency, in 1899.

Recognized as an authentic gauntlet of advertising media throughout Canada, the directory gives extensive information about newspapers,

magazines, trade papers and mis-

cellaneous publications. Provinces,

cities and towns where publications

operate are all listed, together with

populations, industries and outstand-

ing characteristics of market areas.

Somewhat larger than its predecessor, this edition will replace last

year's directory on the desks of man-

ufacturers, publishers and all firms

dealing in advertising in Canada.

**SURE I have
the Improved
Carnation Milk**

**See the word
'IRRADIATED'
on the label'**

FIRST TO PROVIDE
IRRADIATED EVAPORATED MILK IN CANADA. SOLD IN BRITISH COLUMBIA SINCE JANUARY

NOW the famous Carnation quality has the added value of irradiation to give it extra "sunshine" vitamin D. Now a better milk for baby's bottle, for boys and girls to drink, for creaming coffee and cereals, for cooking. It is the milk the Dionne quintuplets get. They have been fed Carnation Milk since November, 1934. Ask your grocer for the Improved Carnation Milk. Look for the word "Irradiated" on the label. Write for two valuable free booklets — "100 Glorified Recipes" and "Contented Babies". Address Carnation Company, Limited, Toronto, Ontario.

**Canada Diatomite
Wins Court Case**

Airing of some of the details of the operations of Canada Diatomite limited got under way yesterday before Judge McInnis when another step was taken in the suit of the company and its managing director, W. A. Laming, against former associates, F. J. H. van Oudenoel, John Potter and William H. Nourse.

When the trial was started, Harold Tait, defendant, questioned the jurisdiction of the judge to hear it.

"The plaintiff seeks unlimited damages, but the County Court is limited to an amount of \$1,000 damages," said Mr. Tait. "The matter on which an injunction is sought must be within the jurisdiction of this court."

H. V. Finland, counsel for the company, and Mr. Laming, asked leave on

the question as to bring jurisdiction within the court.

The judge gave Mr. Finland the privilege of amending.

"I feel, then, your honor, that I can no longer part in this action and must withdraw subject to a hearing in a higher court," said Mr. Tait.

Mr. Finland then proceeded with his case unopposed.

The judge ordered judgment for \$1,000 in favor of the company and Mr. Laming, and a declaration that the machinery that disappeared was the property of the company.

**MORE JUBILEE
MEDALS GIVEN**

F. Napier Denison, superintendent of the Dominion Meteorological Observatory on Gonzales Heights, who has been a member of the civil service for forty-five years received one of the King's Jubilee medals this morning. Miss Kate Gaudin, formerly stenographer in the local agency of the Marine Department, also received a medal to-day. She served over thirty years with the department. All of the Dominion civil servants are receiving their medals direct from Ottawa.

Silver Jubilee medals have been awarded the following, who have served the Government Telegraph Service for thirty years or over: P. W. Dowling, divisional superintendent, Vancouver (retired); Oscar Landry, district superintendent, Prince Rupert; Mrs. F. A. Naslam, telegraph operator, Banff; Mr. C. G. Clegg, telegraph operator, Hazelton; B.C. A. S. Gillespie, operator-lineman, Clinton, B.C., and H. J. Miller, operator-lineman, Ucluelet, B.C.

Robert J. Herbert, a recipient of a Jubilee medal in Vancouver during the celebrations on May 6, is a former pupil of the Boys' Central School. He won the Governor-General's high school medal under the principalship of the late Mr. Neatherby. Miss E. J. Herbert, senior city school nurse, is a sister.

Doctor's Prescription Does the Work

Few Pile sufferers know that the cause of Piles is internal—bad circulation of blood in the lower bowel. This is the scientific truth about Piles—the real reason why salves and suppositories so often may not give lasting relief and why cutting sometimes removes the pile tumor but leaves its exciting cause which may create a recurrence.

Your itching, bleeding or protruding Piles will only go when you actually remove the cause. For this an internal medicine should be used. HEM-ROID, the prescription of Dr. J. S. Leonhardt, sold by good druggists everywhere, succeeds because it stimulates the circulation, and acts to relieve the constipation.

So isn't it better, when salves fail and before considering operation, to try this internal remedy when MacFarlane and Vancouver Drug Stores invite every Pile sufferer to try HEM-ROID, with money back if not fully satisfied with the help one bottle gives. (Advt.)

B.C. Moves To Combat Tariff Policy Effects

Japanese Threat to Regulate Canadian Imports Would Be Serious Blow to Province; Action at Ottawa Sought; Revision of Internal Tariff Operations in Automotive Industry Also Needed

With a new threat to one of its export markets, closely following the setback sustained by Soviet lumber interests in the United Kingdom, British Columbia is preparing a renewed drive for revision of Canadian trading policies.

The latest move, which may seriously affect this province's export business, was made by Japan, which is proposing control methods over imports from Canada due to the big favorable balance this country's trade has there.

This is believed, would be a serious blow to British Columbian and especially to the lumber industry, which exports large quantities yearly to Japan. The timber industry is already making representations to Ottawa asking for an arrangement which will remove the possibility of such action by Japan.

The provincial government, Premier Pattullo made known to-day, is keeping abreast of this situation. Dr. W. A. Carruthers, chairman of the Economic Council, has appointed a special study of B.C. trade with Japan at the instance of the Premier.

The government proposes to list the trade question for discussion at the next dominion-provincial conference. As it is viewed here at present, the one solution for the problem is a regional tariff system, enabling this province to trade on equal terms with those countries that wish to purchase its goods. It could easily accomplish let-down of the tariff barriers and 'ensure' of eastern manufacturers to the mercy of world competition.

TRADE BALANCE

The present Japanese objection, according to information here, is based primarily upon the fact that Japan buys something like \$16,000,000 worth of goods yearly from Canada. Their claim is that an arbitrary currency arrangement imposed by the Canadian government on goods imported from countries with depreciated currency works as an extra duty and hinders the movement of goods here. This levy is made up of the difference between the value of a foreign currency and the existing exchange rate. What should this situation mean, you ask? Well, Japanese trade balance will become more unfavorable.

The official Japanese trade council, which listed the highest score in the Dominion and B.C. business interests have been warned by Japanese exporters that a change is coming. The trade council had power to negotiate an arbitrary manner if it is deemed in the best interests of the country's trade.

The B.C. lumber industry alone would suffer a serious blow if shipments to Japan were curtailed. Last year B.C. sent \$2,250,000 worth of lumber products to Japan, approximately 143,000,000 feet.

LOSS OF MARKETS

With losses on the United Kingdom market following the new Soviet agreement and no chance of getting into the United States due to the tariff situation, cutbacks of the Japanese imports are a matter for grave concern. Lumber interests feel Japan also takes pulp and paper

and lead products from B.C., all of which would be affected.

Figures available here showed the total value of B.C. exports to Japan last year was \$8,500,000, segregated as follows: Wood, paper and wood products, \$5,681,000; lead, \$1,705,000; zinc, \$1,127,000; herring, \$154,105; and salmon, \$235,000. This province does more than half the entire Canadian trade with Japan.

Against these exports B.C. purchased approximately \$3,500,000 worth of goods from Japan.

Should Japan attempt to level the balance by restricting imports, the net loss in B.C.'s trade would thus be about \$5,000,000 a year, with consequent unemployment.

AUTOMOTIVE TARIFFS

With this in mind, special counsel have been appointed for the provinces, the first being T. A. Tait, barred in Vancouver, May 29 and will submit briefs upon the operation of the automotive and petroleum products tariffs in British Columbia.

Argument in this connection is that British Columbians have to pay enormous extra costs for motoring through the tribute levied by tariff-protected eastern manufacturers. On automobiles alone this is estimated to exceed \$5,000,000 a year.

CITY POLICE IN SHOOT FINALS

Local Squad Will Compete Against Crack Dominion Revolver Teams

Members of Victoria's crack police revolver team, which lifted top laurels in the recent chief constables' competition in British Columbia, will compete this month in the finals of the event for Canada.

The Victorians will match shots with police teams from each of the other provinces in the Dominion and are in high hopes of coping the Canadian honors.

An idea of the stiff opposition which they will meet was gained today by Inspector J. A. McLean and Claude L. Harrison, constable of the team who received the news of the other provincial teams which qualified for the competition.

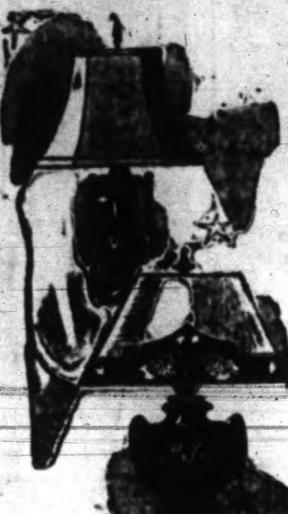

The official Japanese trade council registered the highest score in the Dominion and B.C. business interests have been warned by Japanese exporters that a change is coming. The trade council had power to negotiate an arbitrary manner if it is deemed in the best interests of the country's trade.

The B.C. lumber industry alone would suffer a serious blow if shipments to Japan were curtailed. Last year B.C. sent \$2,250,000 worth of lumber products to Japan, approximately 143,000,000 feet.

With losses on the United Kingdom market following the new Soviet agreement and no chance of getting into the United States due to the tariff situation, cutbacks of the Japanese imports are a matter for grave concern. Lumber interests feel Japan also takes pulp and paper

Change Oil Now

Not only because it's Spring, but because there never was an oil like this new oil!

Many things have happened in oil refining since you last bought summer oil. The makers of Mobil oil now offer you Mobil oil made by the famous Clearosol Process—a process that makes the world's quality oil even better! That process eliminates all non-lubricating elements from Mobil oil. It has made Mobil oil the nearest 100% lubricant ever known.

Change to summer oil now—but no matter what oil you used last summer try the new Mobil oil. You owe it to your motor and to your pocketbook. For you'll get as much as 25% greater oil mileage. You'll get more power and smoother engine performance. You'll have cleaner rings and valves—a cleaner motor. You'll have an oil in your crankcase that can and will stand up under any summer driving condition. It takes just ten minutes for a drain and re-fill to the correct summer grade.

News of Clubwomen

Notices for publication in the columns on Saturdays must be written, and handed to not later than Friday afternoon.

St. Joseph's Auxiliary — The monthly meeting of the Ladies' Auxiliary to St. Joseph's Hospital will be held to-morrow afternoon in the Nurses' Home.

Victoria Lodge — Daughters of St. George, Victoria Lodge, No. 82, held their regular business meeting in the H.O.E. Hall recently with the worthy president, Mrs. Britton, presiding. The members will hold a rummage sale on Saturday morning, and on May 23 an old-time tea.

To Hold Tea — Under the auspices of the Business Women's Branch of Christ Church, C.W.E., W.A.C., a "tea" will be held on Saturday afternoon at the Y.W.C.A. from 2 till 4 o'clock. There will be afternoons tea, plain and fancy tea, home cooking and candy, and a musical programme.

St. Andrew's Y.W.M.S. — The monthly meeting of the Young Women's Missionary Society of the St. Andrew's Presbyterian Church was held on Tuesday evening in the home of Mrs. Harry E. Mount Davies, Apartment, Fenders Avenue. The meeting opened with the president, Miss Frances Lightbody, in the chair. Final plans were made for the concert to be held under the auspices of this organization at the St. Andrew's Presbyterian Church on Friday evening, May 11, at 8 o'clock. Tickets may be obtained from any member of the society. An interesting paper on "Our Field in Formosa" was given by Miss Marjorie Kennedy, and the prayer was read by Miss Mae McCorkell. At the close of the business meeting, refreshments were served by the hostess.

LAYS CLAIM TO OLD ESTATE

But C. W. Tabor, Red Pass, B.C., Will Not Find Fortune, Say Coloradans

Edmonton, May 8.—Down his luck and in debt, where his next move remains from a South African and Great War veteran here says he is a claimant to the famous Tabor mine at Leadville, Colorado, said to be worth even now close to \$5,000,000.

He is C. W. Tabor, fifty-eight, until recently a resident of Red Pass Junction, British Columbia, forty-four miles west of Jasper, McCourt.

Recently Elizabeth McCourt "Baby Doe" Tabor, seventy-three-year-old actress-wife of the late H. A. W. Tabor, mining prince of the "roaring eighties" died in her lonely cabin near the famous Matchless Mine, which netted its owner \$11,000,000 in silver and gold in the early days. She left no children, and unless someone can prove his claim to the estate it all will go to the state.

Now Mr. Tabor, who knew "Baby Doe" years ago, has commenced legal proceedings to claim the estate, on the ground he is the closest living relative of the late Mr. Tabor.

"My grandfather was the managing brewer of H. A. W. Tabor's father," he explained.

ONLY DEBTS NOW

Leadville, Colo., May 9.—C. W. Tabor, whose "grandfather was the

passenger brother of H. A. W. Tabor's father," will inherit debts and not a fortune from the Tabor estate.

An appraisal of the Tabor estate, made this week, revealed its value was \$600,125, mostly in trinkets which "Baby Doe" Tabor, widow of the one-time Colorado silver Croesus, had hoarded in a Denver warehouse as mementoes of the time when the Tabor luck turned in its mouth.

Mrs. Tabor, named sole beneficiary of H. A. W. Tabor in a will to be made when he was a multimillionaire, inherited practically nothing from him. He died almost penniless. She left no will when she died in a mine shaft last month in March.

No heirs have made any claim, although two of Mrs. Tabor's brothers live in Denver, and friends said one daughter of Mrs. Tabor is living.

Several workmen employed by Mrs. Tabor to work the old Matchless Mine near here, which once produced some of the most valuable claims of the Tabor mine several years ago passed from Tabor ownership and was taken over by a Denver flour milling family, long-time friends of the Tabors.

NANAIMO

Nanaimo, May 8.—The death occurred on Wednesday morning of Mrs. Margaret Ann Roberts, wife of Charles Roberts, at the family residence.

The deceased was a native of Westmeath, Ireland, and had resided in Nanaimo for the last fifteen years. Mrs. Roberts took a prominent part in the local affairs, being actively connected with the Rebekah Lodge and Cymodorian Society. She is survived besides her husband, by two sons; Robert and Emmett, and two daughters, Mrs. Jim Jackson and Mrs. L. Thompson, all of Nanaimo.

Works Schemes In Vancouver

CANADIAN PRESS

Vancouver, May 8.—Two public works programmes are to be proposed under orders of the vice board of works, one entailing expenditure of between \$4,000,000 and \$5,000,000, with which the Dominion Government will be asked to assist.

The other scheme will be financed with relief money and \$425,000 expected to be left from the sale of \$1,500,000 baby bonds, according to the government.

Several workmen employed by Mrs. Tabor to work the old Matchless Mine near here, which once produced some of the most valuable claims of the Tabor mine several years ago passed from Tabor ownership and was taken over by a Denver flour milling family, long-time friends of the Tabors.

Albertson W. W. Smith and City Engineer C. Brackenridge on Tuesday were appointed by the board to prepare these works schemes at the request of Mayor G. G. McLean.

Mr. McLean said the necessity of having the heavy hand work projects outlined before the bonds are sold so the public may know for what purpose they are lending the city their savings.

Albertson Smith and the engineer have already had the proposed schemes under consideration and are working on them now, with a hole in chief expenditure will be for labor.

In connection with the scheme on which Dominion assistance will be sought, the mayor said that a \$4,000,000 project had been planned for Nanaimo, of which the federal government would pay 50 per cent. He understood the City of Nanaimo would contribute \$1,000,000, pay only 10 per cent of the total.

Productions and No Penalty For Ex-Senator

FESTIVAL PLAYS YESTERDAY Evening Reach High Mark of Drama Week

BY R. A.

Both through the comment of Lady Tupper, the adjudicator, and through the general feeling prevailing in the audience, it was evident that the three plays produced yesterday evening in connection with the fourth B.C. Drama Festival, Victoria, as a whole, a high mark in the drama were far off. Perhaps the greatest applause was shown on the third play, the Victoria Little Theatre Association's production of Beulah Dix's "The Moundrill Trick," with Dan Macdonald as director, though of course this is not necessarily a criterion of the superior execution of a particular performance.

In this romantic tragedy dealing with the life and in private conversation, the adjudicator was in favor of the production, particularly to what she termed a perfectly beautiful performance by Fraser Lister as the younger brother of Connacht of the summered Trick.

She considered Mr. Lister's interpretation as moving, beautiful and real from the first entrance. Lady Tupper noted that the acting of Holly O'Leary as the princess was quite the best she had seen at the festival so far.

Both on the stage and in private conversation, the adjudicator was in favor of the production of the direction of this group's performance received. "I want to congratulate Miss Johnson very heartily," she said, in referring to the director, Miss H. C. Deane.

Lady Tupper believed that the thin city has much dramatic talent waiting to be developed to the full; her criticism this week has tended to concern itself more with production and direction than with actors and actresses.

"The stage looked as well as it could possibly have done," she observed in dealing with "The Princess and the Swineherd." Apparently the adjudicator's opinion is that the staging facilities at the Shrine are not all they might be.

The remainder of this excellent cast were Margot Green as the empress, John Paddington as the swineherd, who was a prince, Mary Paddington as the messenger, Robin Prance, Olga Stathes and Phyllis Paddington as ladies-in-waiting, and Peter Donald, Richard Francis and Michael Paddington as pages.

"I have not noticed the last play, but I have nothing to criticize about it, except that it was more a ballet than a play," said Lady Tupper of the Western School of Dancing's production of "Panchette from France" under the direction of Miss Dorothy Cox. Costuming, direction, grouping and lighting were all commendable.

In the adjudicator's opinion there was not much to choose between those who represented the various roles. Anne Crowther was described as doing the part of the wooden doll extremely well, and there is no doubt.

Bert Cuthbert as the spider also appealed to the judge. Muriel Uthoff was Miss Panchette, a French doll; Miriam Schwabe was Snowflake; Felicity Grant, a Japanese doll; Sheila MacArthur, Goldwing; Joyce Jamieson, Teddy Bear, and Phyllis Green, a tin soldier.

"I am sorry to say in my opinion I have nothing to criticize about it, except that it was more a ballet than a play," said Lady Tupper when adjudicating the first two performances. She felt that the young members of the Fairfield Junior Dramatic Club could have got more out of Eugene Perry's "The Little Gardeners" if they had been made to realize all the possibilities.

Betty Dodson was praised for her histrionic ability, and was described as being "really an actress." Juanita Arthur was credited with having a lovely voice for the stage, with the best range heard at the microphone.

Barbara Bamford took another solo part as Jack. The little gardeners, a chorus, consisted of Viola Arthur, Joan Duncan, Mable Gangster, Dorcas Menzies, June Coates, Freda Green, Dorcas Bear and Dora Menzies, Joan Bamford, secretary.

Instancing the case of Bernard Shaw, the adjudicator stated, in connection with Sefton College's performance of "The Critic," that the author seldom made a satisfactory producer. E. F. Roberts was both author and producer of this fairy tale. Betty Dodson as the flower girl received compliments for her excellent direction and for having a good idea of her part, and Maureen King, as the little page, was considered completely charming. Ivy Hill was in the double role of director and archbishop. Other parts were taken by Irene Webb, grey; Doreen Lally, blonde; Phyllis Scott, lord chamberlain; Norah Mann, Prince Philip, and Molly Scott, the prince's cousin.

Instancing the case of Bernard Shaw, the adjudicator stated, in connection with Sefton College's performance of "The Critic," that the author seldom made a satisfactory producer. E. F. Roberts was both author and producer of this fairy tale. Betty Dodson as the flower girl received compliments for her excellent direction and for having a good idea of her part, and Maureen King, as the little page, was considered completely charming. Ivy Hill was in the double role of director and archbishop. Other parts were taken by Irene Webb, grey; Doreen Lally, blonde; Phyllis Scott, lord chamberlain; Norah Mann, Prince Philip, and Molly Scott, the prince's cousin.

During one of the intermissions, Major L. Bullock-Webster gave some details of the International Drama Festival set for August 5 to 10, inclusive. The committee in charge is under the chairmanship of Capt. L. Thorpe-Douglas, R.N. It is planned to hold the festival in connection with May Day, Labour Day, Pro Progress movement, and to attract groups from the United States as well as western Canada. The interest such a plan, with its main object of securing American teams, would have for tourists was first suggested by Stewart Clark.

Major Bullock-Webster also took the opportunity of commending the qualifications of Lady Tupper as a critic of plays. At the age of eleven she acted the part of Alice in "Alice in Wonderland," and at seventeen she was Desdemona on the Brooklyn, N.Y. stage. She is at present a student at the Royal Conservatory of Music, the Dominion Drama Festival, and she has to credit a production of Ibsen's "The Master Builder," which Major Bullock-Webster stated many professionals would hesitate to undertake.

To-night's programme, commencing at 8 o'clock, will consist of "The Little FREEZONE," a musical comedy, in which corn stops barking whenever you lift it right off with fingers.

Your dreamlet with a bottle of FREEZONE for a few cents, sufficient to remove every last corn or callus between the toes, and some new lollipops without dentures or dentists.

There was a mistake in the programme concerning our member of a Monday evening cast. Patricia Pennington, not Faith Monk, took the part of Mo in "Reflections in a Chinese Pool."

STRAWBERRY VALE

Members of the B.C. Columbia Women's Auxiliary held their monthly meeting at the home of Mrs. G. J. Foster, West Saanich Avenue, Greater Victoria, where reports of the recent silver tea, which was held for the women's auxiliary, were presented. Mrs. Rogers gave an interesting talk on the work of the auxiliary since the founding of the provincial board in 1926 by Mrs. Roberta G. Deane. On October 1, the birthday of Miss Dorothy Mills, the junior auxiliary will sponsor a silver tea in the Marigold Community Hall, Wednesday afternoon, May 8.

It was decided that a number of members of the auxiliary meet at the parish church, Thursday, May 10, for the annual spring cleaning. On Wednesday, May 15, there will be a May Day picnic at a Marigold residence with musical numbers will be presented in the Strawberry Vale Community Hall, Burnside Road, by the children of the district. The proceeds from this function will be in aid of the Royal Canadian Women's Institute, the Kootenay Roads and Queen Albertha Institutes.

On Saturday, May 18, the Ontario Court of Appeal will rule.

The court upheld a judgment of Chief Justice H. E. Ross in an action in which John Thomas Kelly of Montreal claimed a total of \$72,000 from ex-Senator O'Brien, who was appointed to the Senate in 1919. Mr. Kelly alleged that, while still a member of the B.C. Legislature, O'Brien became interested in a contract awarded by the government of Canada in February, 1924, to A. W. Robertson Limited for construction of section eight of the Welland Ship Canal.

The plaintiff maintained Mr. O'Brien was guilty of a breach of trust, violation of his fiduciary duty, and of conspiracy to defraud the government of Canada of \$200 a day for the year ended October 5, 1923.

Dismissing the action, Chief Justice Ross held the claimant of such a forfeit must bring suit within one year from the time the damage was incurred, and ruled no damages had been incurred by Mr. O'Brien within the year named in Mr. Kelly's writ, issued in October, 1923.

Rev. William Allan, Glynn Road, left Saturday afternoon for Calgary to attend a memorial service for Rev. George H. H. Hodge, who is seriously ill.

Mr. and Mrs. H. H. Wilson, son of Mr. and Mrs. A. H. Wilson, Vancouver, returned to his home on Sunday after visiting at the home of Mr. and Mrs. L. Butcher, Wilkinson Road, during the holidays.

BIDS CALLED FOR BRIDGE

NANAIMO COUNCIL TAKES ACTION IN CONNECTION WITH SOUTH FORKS DAM SCHEME

Nanaimo, May 8.—Decision to call tenders for the building of a bridge at South Forks dam to carry water to the city was reached by the city council, presided over by Alderman Inkster Tuesday evening.

This action is necessitated by the fact that the relief unemployed refuse to work for less than 20 cents an hour.

Alderman Dixon made a motion to put the question of employment up to the government in view of the fact that he had to borrow money at 5 per cent to pay relief. He pointed out that the ratepayers could not meet the demands of relief workers.

A communication was received from E. W. Griffith, relief administrator, stating that on the advice of Hon. Frank Macpherson, Minister of Health, the government would allow Nanaimo city \$50 per month to assist in medical relief for unemployed.

Kinross Road and Garden City Canadian Girls in Training will hold their annual mother-and-daughter banquet in the Sunday schoolroom of the Wilkinson Road United Church on Saturday evening, May 11.

Miss Dorothy Hodgson, Vancouver, is the guest of her mother, Mrs. E. W. Griffith, Delmar Avenue.

Life Insurance Week . . . May 13 to 18

30
MINUTES
*may gain for you
a lifetime of
Security*

T'YOU, it may prove to be the most important 30 minutes of your life—that half-hour in which you decide upon a programme of Life Insurance to meet your particular needs.

Your Life Insurance man will give you expert counsel on how to achieve financial independence—how to guarantee an income for your wife—how to ensure the education of your children.

By following his advice, you will gain a lifetime of security. You will enjoy

peace of mind in the knowledge that you and your loved ones will be provided for adequately.

That is the reason we urge you to consult a trained Life Insurance man, just as you do your doctor or lawyer. You will find that he is a real friend to your family, one who is well qualified to solve your financial problems and save you future worry.

Welcome the Life Insurance man to your office or home, whenever he calls.

Byrd's Return Is Broadcast

Both Major U.S. Networks
Will To-morrow Cover
Washington Reception

The arrival of Admiral Richard E. Byrd in Washington, D.C., after his long vigil in Little America, will be described for the radio audience to-morrow by announcers of both the National Broadcasting Company and the Columbia Broadcasting System.

Climaxing the historic series of broadcasts from the second Byrd Antarctic Expedition during its fifteen months in Little America, microphones of the Columbia Broadcasting System will accompany Admiral Byrd and his men in a series of three broadcasts as they approach Washington aboard the S.S. Bear of Oakland, as they are greeted by President Roosevelt, and during their final

honors at a reception by the National Geographic Society.

ANNOUNCER FLIES OUT

For the first broadcast, as a dramatic prelude to the official pageant, Announcer Harry von Zell will board a seaplane, fly down the Potomac, land, board the Bear of Oakland. There, von Zell—famed for his dramatic two-way conversations with the men of Little America—will broadcast his greeting and renewal of acquaintances over the CBS chain.

Harry's voice was the last which expedition members heard in the now historic Byrd programmes. His ad-
vance programme will be broadcast between 11:45 and 12 noon, P.S.T.

President Roosevelt's reception of Rear Admiral Richard E. Byrd and members of his second Antarctic Expedition as they disembark at the Washington Navy Yard on the banks of the Anacostia River will be flashed over the CBS screen between 1:45 and 2:15 P.M.

NBC BROADCAST

President Roosevelt's welcome greet-

ing and a talk by Admiral Byrd will also be broadcast over an NBC trans-

continental from 1:45 to 2:15 P.M.

NBC stations will include KOMO and KJR.

Conducting his series of tests with eight different cars, ranging in age from one week to nine years, with mileages from 3 to 98,000, he found that the average car, with "cold" engine, will start to run on just 15 drops of Home Gas!

He also established that it will start and run (idle) for a whole minute on 1/200th part of a gallon of Home Gas.

IT seems an incredibly small amount,

but that is the actual result arrived at by Mr. G. S. Eldridge, prominent Western Canadian analyst and chemist!

Here's proof, indeed, that Home Gas is an exceptionally economical motor fuel.

Luney Bros. Ltd. have been awarded the contract to erect the hydrographic warehouse for the Dominion Government on the industrial reserve site, north of the Johnson Street bridge.

Excavation of the foundations will be started at once and the building, which will cost \$41,160, will be completed in September.

The plans provide for a two-story building of steel frame and heavy mill timber finish on concrete foun-

dations. The structure will be 96 feet long and 35 feet wide. The ground floor is designed for the storage of heavy equipment and the upper floor will be used for the storage of light gas and materials used in the coast hydrographic service. Machine and carpenter shops will be located on the north side of the building and on the south side will be two special storage rooms.

The warehouse building will re-

quire seven-two tons of steel and 190,000 feet of timber. A traveling crane will also be installed and the building will be served by a track linked up with the government wharf. The excavations will be done by hand labor instead of steam shovels in order to provide more employment.

The City School Board will find half the increased costs of a 5 per cent wage restoration to teachers, according to a formal resolution passed at the board's meeting yesterday evening.

The costs for the rest of the year, with the restoration being effective

May 1, will run in the neighborhood of \$7,000 above the previous appropriation for salaries. Of this amount the board will find \$5,000 by reducing its building and grounds appropria-

tions by that sum.

The resolution, giving formal sanction to the plan approved in principle before, was passed without debate.

Even Rheumatic Pains Eased Fast Now!

BAD HEADACHES, NEURITIS PAINS OFTEN RELIEVED IN MINUTES THIS WAY

Remember the pictures below when you went to bed relief from pain. You need not get the method described—just take Aspirin.

Millions have found that Aspirin eases even a bad headache, neuritis or rheumatic pain often in a few minutes.

In the stomach as in the glass here, an Aspirin tablet starts to dissolve, or disintegrate, almost the instant it touches moisture. It begins "taking hold" of your pain practically as soon as you swallow it.

Equally important, Aspirin is safe. For scientific tests show this: Aspirin does not harm the heart.

Remember these two points: Aspirin Speed and Aspirin Safety. And, see that you get ASPIRIN, it is made in Canada, and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin tablet.

Get tin of 12 tablets or economical bottle of 24 or 100 at any druggist's.

Why Aspirin Works So Fast

10 SECONDS BY STOP WATCH
An Aspirin tablet starts to disintegrate and go to work.

What happens in your stomach—ASPIRIN tablets start "taking hold" of pain a few minutes after taking.

PRISON RULING IS PROTESTED

Duncan Council Objects to Carrying Cost of Prisoners' Examination

Special to The Times

Duncan, May 9.—Protest will be made by the Duncan council to an amendment to the Police and Prisons Regulation Act which requires that all prisoners must be medically examined and certified free of disease, at the expense of the municipality before being sent to Oceanside. This was decided at the meeting of the council held over by Mayor Prentiss Tuesday evening.

It was reported that the Nanaimo-Duncan had agreed to install an eight-inch main on Cairns Avenue, Street instead of across-and-back.

A request for permission for the S.C.P. to hold a fair day for the unemployed relief strikers in Vancouver was refused, the council holding to its intention to allow but three tag days in the year.

Manager Macdonald of the Nanaimo-Duncan Utilities was present and explained details of the proposed change in power rates. The council finally agreed them.

Reports were received from the streets and finance committees, and the tax by-law for 1935 was finally passed.

The mayor reported on the recent tourist campaign meet in Nanaimo and also the Jubilee Day celebration.

Twenty-five Years Ago To-day

THE VICTORIA DAILY TIMES
May 8, 1910

(From The Times File)
In every church in Victoria yesterday sorrowful reference was made to the event which occurred in the morning. The subject will be more fully dealt with in the course of the memorial services which will be held on the day of the late King's funeral.

Chief Davis, of the Fire Department, is now president of a hand-operated chemical extinguisher—automobile—the machine serving a dual purpose, that of conveying the Chief to the scene of a fire with the greatest possible speed, with emergency appliances for extinguishing any small blaze.

A petition is said to be in circulation asking that the High School be established on the site now owned by the city in the rear of the Empress Hotel.

By setting a fast pace in the early stages of Saturday's soccer game, and maintaining it throughout, the North West football team was able to defeat the Esquimalt squad by a score of 5 to 3. The Wards now have the lead in the second division Island championship.

STRIKERS' COMMUNISM AND PROSPERITY

(Continued from Page 4)

about by a doctrine of hate and destruction; no good thing has ever been accomplished that way. Goodwill, co-operation of all classes, and constructive thinking are the road to get us out of depression. The farmers and workers want Social Security and more purchasing power; with good money behind them, they can maintain the means of the Douglas Social Credit system, a heavy super-tax on the very rich, old age pensions at sixty or even earlier until all the young fellows can get a job, contributory unemployment insurance (we don't want charity) and other like measures. Also we want a government which will see that good citizens can go about their business undisturbed, give confidence to the investing public and encourage private enterprise.

These communistic agitators would first turn Canada into a slaughter house and then make her into a slave state with no room for individual workers (see article on Russia under Communism in the Christian Science Monitor, March 27, 28 and 29).

Canadians will never stand for this

The Weather

Betty Bellotti

THE SPORTS MIRROR

Many Other Attractions Are Listed For Three-day Celebration in City.

SCHOOL SPORTS BILLED MAY 23

NOT A FEW baseball men trace Joe Cronin's erratic work in his right wrist suffered last season.

If it is true that what for five years has one of the most skillful of hands and throwing arms in baseball have been impaired by the injury, Tom Yawkey certainly has had tough luck with fabulous purchases calculated to put the Boston Red Sox on their feet without delay.

Tawkey signed the Philadelphia Athletics at \$10,000 for the Boston manager. Only to discover that fourteen years of yesterdays service had taken the fireball from Lonaconing Lefty's once rubber arm.

The Boston club would have run the stripes off the pennant-winning Detroit Tigers in 1934 had Grove enjoyed a season like any one of his previous ones. But the young southpaw spent a good share of the campaign in sick bay endeavoring to locate the source of his difficulty, and hasn't turned in a really first-class job since he joined the Red Sox.

When Grove failed to blow Boston to the American League bunting by blowing down batsmen, Yawkey gave the Washington Senators \$250,000 and Shortstop Lynn Lary for Cronin, Clark Griffith, manager, shortstop, and

in addition, Yawkey had signed an iron-clad six-year contract at something like \$25,000.

Only a minimum baseball number would make a deal like that in face of the fact that Cronin's erratic work during the 1934 season has cost the Red Sox a lot. Eddie Murray, the San Francisco Irishman fell face first with the wrist doubled under him upon colliding with Wally Pippell, who covered first base. Luckily, he remained in the game, making a great relay throw to the plate despite the fracture in the following inning trying to cut off Bill Werber.

Cronin jammed the same wrist again in an exhibition game this spring, and remained out of several of them as a result. Cronin says that this was not due to the old injury, and is substantiated by Dr. Edward Larkin, the Washington club's physician, who declares that the break isn't bothering the head man of the Red Sox and has not affected his throwing.

Baseball men shake their heads and wonder just the same.

Babe Dahlgren saved Cronin errors with phenomenal catches in the opening series with the New York Yankees. Cronin fumbled a game away for Groves three times away from Boston, and his two hits enabled his old Washington teammates to overcome a two-run deficit and beat Ferrell in the ninth as the Senators swept the three-game series. Cronin contributed liberally to the Boston array's fifteen errors in five games.

Cronin's true worth as a defensive player cannot be measured by his average, however. He always has gotten mitts on balls that some other shortstops would not get near.

It is not the early history of bobbles on the part of Cronin that is giving followers of the Red Sox cause for apprehension. They would feel much better about the situation if they were positive that the broken wrist was not handicapping likeable Joe.

Grove and Cronin aren't the only members of the Boston club with arm trouble, according to all "experts," but Ferrell, whose arm is "just about gone," is a Buckley Hammer. He put it, the Yankees and Americans are their, and he deserves to win a second time from the latter outfit.

Ferrell's curve is described as just a dinky thing that a patagoner would be ashamed of, and his once blazing fast ball now is said to breeze up to the plate looking as tame as the Empire State Building.

They relate that when the courageous Ferrell finished the 1934 season with Cleveland, his arm as dead as a Philadelphia Sunday, he returned to his North Carolina home, got a can of paint, slipped five circles together on the side of his hand, and started throwing balls at them.

The story goes that the Quilted Guide deviated such accuracy that he could hit each circle at twenty paces with his eyes closed. Anyway, when the Red Sox closed a deal for him some time after the start of the

Baseball, Regatta, Car and Sea-flea Races Scheduled

Title Golf Will Open at Colwood

Eighteen hole qualifying round of the annual Colwood Golf Club men's championship will be played on Sunday. Competitors can arrange for their own partners and starting times. R. F. Schwengen is the present holder of the title and will defend his laurels.

Sports followers will enjoy a full programme during Victoria's May 24 festivities, according to the official list of events released to-day.

Track and field, rowing events and other regatta features, baseball, roller hockey, auto speed contests will furnish some of the thrills for the faithful.

Starting on May 23, thousands are expected to turn to the Willows to watch the speedsters run in the annual Victoria school sports, a series of contests which ranks from a point of numbers, foremost in the city's track and field programme. That meet is scheduled to start at 2:15 p.m.

Arrangements have been completed for the events and the races should be staged with the usual dispatch that has marked former city school sports.

At 2:30 o'clock on the morning of May 24, nose-horned pitchers will open the city championship tournament on a stretch of the ocean at Blanshard Avenue and Blanshard Street.

At 10:30 o'clock that morning the Victoria Sons of Canada Ball Club will step up against Vancouver United Senior League team of the Terminal City in the first of three games at the Athletic Park. The encounter will mark the second meeting for the newly-organized club.

The second meeting against the mainlanders will be played in the afternoon, starting at 3:30 o'clock. The third battle is scheduled for Saturday afternoon, at 3:30 o'clock.

Outboard races at the Gorge will start at 10:30 o'clock on May 24, with leading speed racers of the city and outside points competing.

BIG REGATTA Half an hour later the big regatta being staged under the auspices of the James Bay Athletic Association will commence at the Gorge. Vancouver crews will be over to compete with the locals in feature contests which include a race for eight-oared skiffs.

Various other sports, including equestrian events, will be staged in the course of the gymkhana scheduled to start at the Willows at 1:30 o'clock on the afternoon of May 24.

The only sports attraction of the evening will be a smart gala under the direction of the Vancouver Island Swimming League at the Crystal Garden. A highlight of that event will be a water-polo match between representative teams from Victoria and Vancouver.

SATURDAY'S SPORTS A soap box derby, down Yates Street Hill, will start the ball rolling at 8:30 o'clock on Saturday morning.

Automobile races at the Willows will be the major sports attraction in the afternoon. The speed tests are scheduled to start at 2:30 o'clock.

In the evening, starting at 5:30 o'clock, the third ball game will be staged at the Athletic Park, and roller hockey players will hold the sports spotlight on Blanshard Street at 7:30 o'clock.

Freeman Draws In Comeback Attempt

Fort Smith, Ark., May 9.—Tommy Freeman, former world welterweight boxing champion, slipped on the first step up the comeback ladder here Tuesday evening when he drew with young Johnny Hull in a ten-round bout.

The former champion relied almost entirely on outfighting against the two-and-one-year-old Fort Smith boxer. Freeman sealed 162½ pounds.

Freeman's true worth as a defensive boxer cannot be measured by his average, however. He always has gotten mitts on balls that some other shortstops would not get near.

It is not the early history of bobbles on the part of Cronin that is giving followers of the Red Sox cause for apprehension. They would feel much better about the situation if they were positive that the broken wrist was not handicapping likeable Joe.

Cronin's arm is now n out," America's Harry who swapped jobs with Cronin during the winter. "We can't throw as fast as he used to."

But you can't pitch hitting. In hitting you try to put the ball where they ain't; in pitching you try to put the ball where the bat won't be.

Ferrell knows every batter's weakness and pitches to it. He'll probably be able to keep it up for five more years, too.

That's cheering news for Red Sox.

And if Ferrell can pitch with no arm at all, a little thing like a broken wrist doesn't figure to retard a fighter like Joe Cronin for any length of time.

The story goes that the Quilted Guide deviated such accuracy that he could hit each circle at twenty paces with his eyes closed. Anyway, when the Red Sox closed a deal for him some time after the start of the

MNAMARA IS UNDER ARREST

Six-day Bicycle Rider Taken Into Custody on Writ Obtained by Wife

Newark, N.J., May 9.—Reginald McNamara, "iron man" of the six-day bicycle race track, was taken into custody yesterday evening just as he was preparing to follow his baggage to the railway station and a train for San Francisco.

The man was obtained by the veteran cyclist's wife, Mrs. Elizabeth McNamara, who charged that Regie had informed her he was leaving their home never to return.

According to Mrs. McNamara, Regie planned to stop over in San Francisco long enough for the six-day races. After that, she said he had told her he was going to Honolulu and Japan. In Japan, she believed he expected to introduce street bicycling as a sport.

McNamara was held in \$12,000 bail.

In default of which he was locked up for the night. Mrs. McNamara announced she would begin a suit for separate maintenance.

Can Use Wembley Stadium For Bout

London, May 9.—The Wembley Board of Control yesterday evening approved the use of the giant Wembley Stadium for the proposed football match between Max Baer and Max Schmeling on August 17. The stadium, scene of the recent British cup football championship, has a capacity of 100,000.

New York Giants Showing Heels To Field In National League

Fine Pitching Brings Double Win Over Cubs

R. Parmalee and C. Castileman Turn Back Chicago 3 to 1 and 6 to 2

Chicago Sox In Another Victory

One of the few surprises connected with the New York Giants' early rise to the top of the National League standing is that apparently no one expected them to do anything else but climb. Admitted on all sides to be the best balanced club in the senior circuit and to have the best four-man pitching staff, the Giants have begun to look tougher than ever now that their second string moundsmen have begun to come through.

Following the first doubleheader of the 1935 season yesterday the Giants not only got some great pitching from Roy Parmalee, who has not lost to Chicago in two years, but the "sophomore" right-hander, Clydell Castileman, who spent most of last season with Montreal, did almost as well. As a result the Giants won two games 3 to 1 and 6 to 2, showed the ball down into third place and had a two-game margin over Brooklyn Dodgers.

TWELVE-INNING WIN

The Dodgers were practically shoved into second place when they took a twelve-inning, 3 to 2 decision from the St. Louis Cardinals after two runs had been forced in by Paul Dean staged a big "blow-up" after walking Danny Taylor in the third and blew himself out of the game to seventh. Mike Hunt, Seattle outfielder, got his eighth home of the season with Montreal, did almost as well. As a result the Giants won two games 3 to 1 and 6 to 2, showed the ball down into third place and had a two-game margin over Brooklyn Dodgers.

DODGERS

The Dodgers were practically shoved into second place when they took a twelve-inning, 3 to 2 decision from the St. Louis Cardinals after two runs had been forced in by Paul Dean staged a big "blow-up" after walking Danny Taylor in the third and blew himself out of the game to seventh. Mike Hunt, Seattle outfielder, got his eighth home of the season with Montreal, did almost as well. As a result the Giants won two games 3 to 1 and 6 to 2, showed the ball down into third place and had a two-game margin over Brooklyn Dodgers.

MONTREAL

Maintaining their unbeaten record in the home park, the Chicago White Sox came from behind to beat the New York Yankees 7 to 6 after Ted Sano Jones had spotted the enemy three early homers by Belkirk, Lowney, and Dickey.

Monte Pearson pitched the second-place Cleveland Indians to a 3 to 0 victory over the Boston Red Sox and Lefty Grove, granting only four hits. The champion Tigers also were limited to four blows but with nine walks they pushed the Philadelphia Athletics hard before a ninth inning rally gave Philadelphia 4 to 3 to edge out Washington and the Senators finally winning 10 to 9 when bunches hit proved more effective than Sam West's two circuit swats.

COUNT LEAGUE

If Smoak Jolley wants to beat Joe Di Maggio's hitting record of sixty-one games he will have to begin all over again.

For the young Hollywood outfielder's streak of safe hits in twenty consecutive games stopped right there, but he only half-middled pitching of Wallace Rapp of the Missions yesterday. He popped out four times and once he got a pass. Frank Shellenback, Hollywood manager, donning his pitching glove to hold the Reds to five hits and led his team to a 6 to 1 victory.

Somehow, surprise everybody by downing the highminded Oaks, 4 to 3, in a fast game, featured by a pitching duel between Tom Flynn of the Solons and Bill Ludolph.

STATE BETS WELL

Nobody but Jigger State could hit San Francisco's Jim Denvers up to the ninth inning yesterday, but the Los Angeles outfielders' teammates finally figured how to do it and bunched six singles that gave them the game 4 to 3. Stats hit three times in the first eight innings and ones in the ninth.

Joe Di Maggio hit one for the circus for the Seals in the fifth. The victory put the Angels back in second place while San Francisco

Pace-setters in Major Baseball

NATIONAL LEAGUE

Battling—Vaughan, Pirates, 452. Runs—Vaughan, Pirates, 17. Runs batted in—Ott, Giants, 20. Hits—Vaughan, Pirates, 32. Doubles—Herman, Pirates, 7. Triples—Collins, Cardinals, 3. Home runs—Myers, Reds, 6. Pitching—Blanton, Pirates, 410.

dropped down to a tie with Hollywood for third.

Dick Barrett, Seattle right-hander, got his first win of the season when Portland went down before the tribunes, 4 to 2. The tribe thereby moved up a notch to sixth place in the league, and Portland dropped to seventh. Mike Hunt, Seattle outfielder, got his eighth home of the season with Montreal, did almost as well. As a result the Giants won two games 3 to 1 and 6 to 2, showed the ball down into third place and had a two-game margin over Brooklyn Dodgers.

CONFIDENT SOX KEYNOTE

In the second division, the Cleveland Indians and Phillips divided a double-header. Cleveland took the opener, 13 to 4, as Ernie Lombardi equalled a major league record by hitting four doubles. He got them off four different pitchers on successive at bats. The Phils rallied to take the afterpiece, 6 to 4. The Boston Braves broke a hitting drought by handing out a 12 to 3 decision over Pittsburgh.

Maintaining their unbeaten record in the home park, the Chicago White Sox came from behind to beat the New York Yankees 7 to 6 after Ted Sano Jones had spotted the enemy three early homers by Belkirk, Lowney, and Dickey.

HOME RUN PARADE

Arky Vaughan, of Pittsburgh Pirates, increased his hold on first place in the National League, 192 to 180, and out of three times of less than 100 to boost his average of .425—a rise of three percentage points. Hollie Hembrey and Jack Hayes also picked up ground, Hembrey gaining fourteen points for a 400 mark with one pinch blow and Hayes breaking the last placard twice to move into second place with a 400 mark.

Burges Whitside slipped ahead of Johnson Moore by holding his loss to five points while Moore dropped nineteen. The stand-

Morgan Proves No Match For Wallace

Former World Junior Welterweight Champ Suffers Sound Trouncing at Hands of Vancouver Battler; Tommy Bland Too Clever For Young Lust

Vancouver, May 8.—Gordon Wallace, Vancouver, Canadian welterweight champion, took an easy ten-round decision from Ted Morgan, Seattle, in the non-title main event of a fist card here yesterday evening. Wallace tipped the scales at 149½, while the Seattle fighter weighed 147½.

Both fighters were cautious in the first round, trying each other out mostly from long range. Wallace managed to score several times to take the round, but his superior weight was too much for him to continue.

The leaders—Ott, Giants, 8; Penn, Athletics, 7; Johnson, Athletics, 7; Canniff, Phillies, 6; Moore, Philadelphia, 6; Bonura, White Sox, 6.

League totals—National, 95; American, 76. Total 171.

HORSE SHOE PITCHING

In three mid-week games of the Greater Victoria Horsehoe Pitching League Pioneer B won from the Naval Veterans B. Both of the Pioneer teams won their game. The lively Veterans of France pulled a most surprising win over the strong George Ledingham & Taylor four, each team having a winning pair. George Ledingham who was with the team for the first time Kestring with twenty-one ringers. The score was 162 to 170 in favor of the Veterans. McLeod's Garage lost their first game yesterday to Jackson A, 201 to 162. McLeod's quintette played well, but could not cope with the strong pitching of the Jackson boys. Bill Jackson, man, twenty ringers, Captain "Fee" Bennett was high man for the garage men with thirteen ringers.

The Strathcona will meet the Knights of Pythias on Friday evening at Bay Street and the Knights will meet the Victoria Legion on Saturday evening at the Legion Hall.

New Fish Plant Company Formed

Farm Foods Ltd. is Victoria Company Capitalized at \$150,000

Farm Foods Ltd., a company formed for the purpose of producing cattle feed from fish, fish waste and offal, and veterinary oils, with Victoria directors, was granted incorporation papers this week at the Parliament Buildings.

The firm, so capitalized, at \$150,000, the company's directors are Mr. M. F. J. E. O'Connor, Mr. Butterfield, Reginald E. Bennett and Hugh Allan.

Mr. Butterfield said the company planned to erect a new type fish plant on the island with a vacuum solvent process for reducing fish and producing a non-oily meal and veterinary oil.

Other incorporations granted this week include:

Willow Placers Ltd., \$50,000. Vancouver.

Sage Creek Explorations Ltd., N.P.L., \$200,000. Vancouver.

Colpo Mining Co. Ltd., N.P.L., \$50,000. Vancouver.

Miss Mary White Buried Yesterday

Many sorrowing friends attended the funeral of Miss Mary Agnes (Minnie) White, held yesterday afternoon in the Victoria Gospel Hall. Donaldach officiated, assisted by C. G. McClean of Vancouver. The hymn "We will sing Hallelujah to Nothing Less," "Jesus Thy Blood and Righteousness," and "Till He Come" were received to the esteem in which the deceased was held.

The following were the pallbearers: A Scrogg, T. Miller, H. Rea, T. Jones, N. Caufield and W. C. Patterson. The Lord's song was sung. The remains were laid at rest in Royal Oak Burial Park.

The meeting of the Victoria and District Cornish Association will be held on Saturday evening at the Women's Institute Hall, 635 Fort Street. Following the business there will be cards. All members and friends will be welcome.

OFFICERS TO BE INSTALLED

Annual Meeting of Real Estate Board To-morrow; Reports Will Be Presented

Submission of reports from the president and secretary and installation of officers for the coming year will feature the annual meeting of the Real Estate Board in Spencer's office room to-morrow at 12:30.

The report of the secretary, Hubert Lethaby, will be presented before the accounts and balance sheet for the year are received and adopted.

T. J. Goodlack, president, will then present his report and the installation will be carried out.

T. J. Goodlack will resume the post of president, with E. F. Powell assuming the office of first vice-president and H. D. Patterson that of second vice-president. J. C. Bridgman, M. K. Crockett, James Forman, Alex Gillespie, F. J. D. Pemberton and A. R. Wolfenden will be installed as members of the executive committee and Hubert Lethaby will be returned to the position of secretary.

An auditor will be appointed for the year.

CLOSER CHECK ON DOGS NOW

Killing of Sheep and Poultry Leads to Stricter Enforcement of License Payment

A closer check-up on dogs was started in the city to-day by N. F. Lord, collector of dog tax, as the result of the increasing number of complaints being filed at the City Hall about animals worrying poultry, sheep and goats.

Several sheep have been reported killed in the outlying parts of the city and efforts are being made to remove dogs responsible for the slayings.

Citizens have been asked to keep closer control of their dogs. All dogs must wear their license tags. Mr. Lord said to-day. The tags are the only means of identifying the animals and those which are without them are liable to be impounded.

Exceptional leniency has been shown dog owners this year in the extension of time granted for license payment. However, the limit has now been reached and owners must secure their tags or suffer prosecution.

WAR VETERAN IS LAID TO REST

Funeral service for Henry Bromley Davies, war veteran, was held yesterday afternoon, under the auspices of the Army and Navy Veterans, Unit No. 12. Rev. F. M. Buck officiated. Among those present were Comrades C. L. F. Money, C. J. Rivers, Major S. Rowlinson, G. W. Thompson, G. G. Ellis, J. Roberts, W. Worth, F. Coles, F. Jones, W. White and Cowan, and Comptroller T. E. S. Parsons of Provincial Police. The pallbearers were: Comrades E. Perry, J. Raven, N. Wilson, S. Bramley, Capt. J. Walker and C. Denley. Interment was in Colwood Burial Park.

Mrs. M. Atkinson Dies in Hospital

The death occurred in St. Joseph's Hospital yesterday, of Mrs. Mary Atkinson, 1011 Buttle Street, aged sixty-six years. She was born in Ontario and came to reside in Victoria thirty-one years ago. She is survived by two sons, Glenford and Perle, of Victoria. The remains are resting at Sands Mortuary Ltd., and funeral announcement will be made later.

FUNERAL SATURDAY

Funeral services for Andrew Cloughley, who passed away suddenly last Saturday, at his home, 1617 Clark Street, will be held Saturday morning at 11 o'clock, from the R. J. Curry and Son Funeral Home. Interment will be in Ross Bay Cemetery.

Mr. Cloughley, who had resided in this city for many years, was born in Marlie, County Armagh, Ireland, and was eighty-eight years of age. He is survived by one daughter, Helen, residing in San Francisco, and one brother in Ireland.

Exceptional leniency has been shown dog owners this year in the extension of time granted for license payment. However, the limit has now been reached and owners must secure their tags or suffer prosecution.

NEWS IN BRIEF

The Victoria Welsh Society will hold a home cooking display at a stall in Spencer's basement to-morrow.

A dance will be held in the Eagle Hall on Friday, May 10, in honor of Mae Clark, Eagle candidate for May Queen.

Harry B. Foster was fined \$10 when convicted in the City Police Court this morning on a charge of driving to the common danger.

A free trip to Victoria is the prize offered for the queen in a popularity contest being conducted in Longview, Wash.

The monthly meeting of the Lake Hill Community Centre will be held in the hall this evening, beginning at 8:30 o'clock.

Theft of a quantity of knives and forks and a mantel clock from the Palais de France, Dallas Road, was reported to city police early this morning by W. J. Woodward, manager of the establishment.

A May Queen skating party will be held in the Victory Roller Rink this evening. Besides all the candidates in the queen competition being present, there will be exhibitions and entertainments.

The divorce decree handed down yesterday by Mr. Justice Lucas in the Supreme Court was in favor of Annie Crooke Temple, 337 View Street, and against her husband, Edward Temple, 272 Esquimalt Road. In the Times last night that Mr. Temple had gained the divorce was incorrect.

The City Fire Department this afternoon responded to four minor fire calls between noon and 2 o'clock. No extensive damage was reported on any of the calls, although a ladder wagon was located at 240 Michigan Street, Powderley and Dominion avenues; Simcoe Street and 618 Bay Street.

The Wednesday evening public skating class of the S.A.C. marked the close of its season yesterday evening with a double night of skating, ladies on the stand all morning giving details of the accident and the injuries.

Robert D. Harvey, defence counsel, opposed as premature the proposal of Mr. Beckwith that the judge should adjourn to the top of the Central Building to study the scene at first hand.

The trial is continuing.

Sues For Fall From Radio Mast

G. W. Davis, Painter, Seeks Damages From Operator of Station CFCT

George E. Davis, 216 Howe Street, brought suit to-day for \$500.00 special damages and \$2,000 general damages against George W. Groves, operator of radio station CFCT, whom he alleged was working as a painter when the scaffolding of the radio mast collapsed on February 13.

The trial opened before Mr. Justice Lucas in the Supreme Court.

Mr. Davis told the court that the painter's seat was held by a wire rope run through a pulley at the top of the mast and that at the end of the wire rope was an extension cotton rope, which parted when strain was put on it. He said Mr. Davis, who was not wearing a safety belt, fell 15 feet and suffered a fracture of the spine and other injuries which had forced him to be held in a plaster cast for two months.

Mr. Davis and Dr. Thomas W. A. Gray, called by Mr. Beckwith, were on the stand all morning giving details of the accident and the injuries.

Robert D. Harvey, defence counsel, opposed as premature the proposal of Mr. Beckwith that the judge should adjourn to the top of the Central Building to study the scene at first hand.

The trial is continuing.

PRINCESS IS VISITOR HERE

Duchess of Kent's Cousin, Princess Katherine of Greece, Arrived Yesterday

Princess Katherine of Greece, traveling incognito as Catherine Constantine, arrived in Victoria yesterday day aboard the S.S. Empress of Canada from the Orient.

Princess Katherine, who is a cousin of the Duchess of Kent, former Princess of Wales, was one of the bridesmaids at the royal wedding in London last November. Her identity was unknown to her fellow passengers until the vessel reached Honolulu, where the story was made public in the Hawaiian paper.

Princess Katherine left the ship at Honolulu, and with her travel companions, Mrs. P. M. Ismay and Miss M. Bennett, proceeded to California for a three-day visit prior to leaving for Los Angeles for a short stay. She will leave on the S.S. Empress of Britain from Quebec on June 15.

Princess Katherine left the vessel on June 15 and with her travel companions, Mrs. P. M. Ismay and Miss M. Bennett, proceeded to California for a three-day visit prior to leaving for Los Angeles for a short stay. She will leave on the S.S. Empress of Britain from Quebec on June 15.

Wall St. Market Absorbs Selling To Close Higher

Associated Press

New York, May 9.—The stock market engaged in another forward thrust to-day with buying interest on the part of the public and some industrial trading. Trading was at a brisk pace throughout, transfers approximating 1,700,000 shares. The close was firm.

Carriers jumped into the lead in the early hours when the rest of the list was subjected to considerable profit-taking. Afternoon saw a lull, however, and soon the oils and other groups were taken in hand for an active advance. The proceedings were the liveliest of a number of weeks.

Cotton spurted \$1 or so a bale and the grains ended after moving about narrowly in the morning. Bonds were mixed, with improvement being shown by secondary items. Foreign exchanges did little.

There were some wide movements in a few shares. Pure Oil preferred shot up more than seven points, and Cuban-American Sugar preferred held a gain of about three. Inland Steel jumped four. Although extreme advances were shared near the minimum, gains from 1 to 10 cents included Santa Fe, N.Y. Central, Union Pacific, American Telephone, Radio preferred, T.B. International Telephone, Standard Oil of New Jersey and California, Atlantic Refining, Consolidated Oil, Bethlehem Pictures, Air Reduction, Bethlehem Steel preferred, U.S. Steel, U.S. Gypsum, John Deere, Commercial Motors, Chrysler and Westinghouse.

R.R. Smelting yielded a point and the other metals were easier, with the exception of Anaconda which was slightly better.

In the Canadian section of the list, shares of Dome, McIntyre, International Nickel and Canadian Pacific were about unchanged to-day. On the curb, Lake Shore ruled steady. Dominion Government bonds were narrow. Canadian funds held even at .99 13-16 cents.

(By H. A. Number Ltd.) Dow Jones averages closed to-day as follows:

INDUSTRIALS—
11,900-112,73, up 0.10.
12,000-113,14, up 0.51.
1,000-113,42, up 0.79.
2,000-113,46, up 0.83.

RATES—
1,000-1,000, up 0.02.

Canadian dollar, New York, .90-1.
Franc, Montreal, 6.60-1.

BASE METALS, OILS HIGHER

Canadian Press

Toronto, May 9.—The Toronto mining market broadened out to-day to give the groups recently in the background a play, including the oils and base metals. Oils had their biggest day in many months and the whole group closed higher.

Royalite led the oils with a gain of 1.50, while Home Oil, Ajax, Acme, Domtar, Midway, Oiga and Oil refineries had gains of 1 to 10 cents each.

Among the base metals slightly higher prices ruled for Penn Orefield, Hudson Bay, Big Missouri and Sherritt and Mining Corporation, all good volume pushed up nearly 20 cents.

Silver buying expanded in the afternoon and morning losses were more than made up, except Eldorado, which closed down.

Strong issues of the gold group were Bralorne, Pioneer, Teck-Hughes, Hollinger and Dome.

Mr.
And
Mrs.

Dorothy Dix's Letter Box

DEAR MRS. DIX—I am soon to be married to a man with whom I am deeply in love. He is everything that a woman could ask—clever, amiable, dependable, loyal and fine. BUT he is a sixteen-year-old boy whose mother has dominated him all of his life. He jumps at her word and call. Waits on her hand and foot. Anticipates her every desire. He is twenty-nine, but he is still a little boy where she is concerned.

Now, what is my attitude going to be toward this man after we marry? How am I going to like his mother being put before me, as she will be? Do I sit passively by and just consider myself lucky that he isn't a philanderer or drunkard or something? Should we get this horrid thing out in the open and talk about it or should I be subtle or what? I am deathly afraid this is going to spoil what should be an ideal marriage.

ANSWER.—The old proverb says that a good son makes a good husband, but that is only true when the son isn't too good a son.

Otherwise he is the worst husband in the world.

The greatest drawback to marriage that a man can possibly possess is to have a mother complex. For when he has that he is joined to his mother and no more wife can ever separate him from her. Always Mother will be his divinity. Always she will be the one who can do no wrong. Always the position of his heart will be for her. Always his wife will be a shadow in the background of his life. Somebody to keep his house and bear his children, but of no importance compared to Mother.

And the man with the mother complex is incurable because he accounts his weakness for righteousness. He has mother-complex bred in his bones because from his very babyhood his mother has impressed upon him his duty to her and told him how much she suffered for him and how much he owed her and how she loved him and all the other hokum with which possessive mothers enshrine their poor little

children. He will always think that "mother knows best" on every subject in the world, no matter if you are a college graduate and Mother is a nitwit.

So there you are and you had as well face the facts. Honesty and courageously before marriage. You will never be able to wean your husband away from his mother, because if a man has not cut his mother's apron strings before he is twenty-nine years old he will never cut them. She will be the dominant figure in his life and his wife will play second fiddle. He will always think that "mother knows best" on every subject in the world, no matter if you are a college graduate and Mother is a nitwit.

And, worse of all, he will always expect his wife to run her life by his mother's theories. If Mother is old-fashioned, why be it wife if she is modern. The man himself wouldn't care a whit about the way his wife wore her hair or the kind of gowns she bought or the number of clubs she belonged to or the color of the polish on her nails, but when Mother puts her hands on these things the gods have spoken and wife has to change her ways, or else there is endless friction.

There is no way in which a wife can combat the mother complex in her husband, because he attributes everything she says to jealousy. This is, of course, partially true, for it takes more humility of spirit than many women possess to take a back seat, without protest, in their husbands' affections and to know that some other woman has more influence over their husbands than they have. There is no arguing with a mother's-boy husband, anyway, because with him Mother is always right and wife is always wrong.

There is just one of two things that the girl can do who is confronted with the problem of marrying a man with the mother complex. She can give him up or else she can make up her mind to content with a second mortgage on his heart rather than have no place in it at all.

DOROTHY DIX.

DEAR DOROTHY DIX.—We are both in the middle twenties. Both from not-too-well-off families. Both at work and earning \$65 a week between us. We have been giving everything we made to our families, but now there are others working and we want to get married. What would be the best way to go about it? We don't want to get married without letting any one know about it until it was all over, for even a modest wedding is expensive. Please give us your advice.

W. D.

ANSWER.—I think your plans are exceedingly sensible and that you are right to start out for yourselves. If you keep putting off getting married until the family doesn't need your help you will never get married at all.

FOR FAMILIES, perhaps without realizing it, become very parasitic. You may have noticed how often a middle-aged, able-bodied man develops a rheumatic knee or some mysterious heart ailment and knocks off work as soon as the children get to bringing in pay envelopes. And you may also have noticed how often the eldest son and daughter of a family never marry, it is because Father and Mother dump the whole family support on them and sacrifice them to the younger children.

This is all wrong, and while children should help their parents they should not permit themselves to be made the family guests.

YOUR plan of just stepping around to the person and getting married then telling your friends and relatives about it afterward is a swell idea, and would that more poor young couples would do likewise. There is no other way in which people get so little fun for their money as in a show wedding with its fun and furbelow.

DOROTHY DIX.

we come to it. All ready now! Form B.

The animal children stood in a line and Miss Mouse sat down at the piano. She played a marching tune. Then Tom, too, got up and marched along with the others.

"I!" The children marched around and around, each one in turn stepping on the paper which was the Magic Carpet set in the piano.

All of a sudden Miss Mouse stopped playing. The children were quiet. "What was it?" asked Tom.

"It was the ring at the door," said Miss Mouse. "It was the ring at the door." The children marched around again, this time the ring was the Magic Carpet.

"How do we do now, Uncle Wigg?" asked the little orphan rabbit.

"How we are ready for the next part of our adventure," said Miss Mouse. "We must now rescue the rabbit gentleman. And if the gray boat will give the orange a ride across the ocean, we will be on our way to Uncle Wigg and Buntly's adventure."

"What do we do now, Mr. Longtail?" asked the missat.

"Which one?" asked Uncle Wiggily, for he did not know which one.

"Miss Mouse from the Hollow Tree School," said Mrs. Longtail. So in crept the Lady Mouse Teacher and Mr. and Mrs. Longtail were very glad to see her.

"I really didn't come to call and I'm not going to stay to gossip, so don't worry," quothed Miss Mouse. "I'm here to help. I've brought a stick of candy for each of you. Come on, all lady mice have whiskers."

"Oh, wot, how to have you stay to gossip?" asked Miss Mouse.

"Thank you—but have you any chance for supper?" asked Miss Mouse.

"No, we have not, we haven't," said Mrs. Longtail.

"Well, we'll have to go without," said Miss Mouse.

"Well, we'll have to go without," said Uncle Wiggily slowly, thinking his pink nose.

"Oh, quothed Miss Mouse, "you were so clever to think of a way so we could have a school without teachers, but the children are small and they can't understand what we can do to amuse, interest and instruct them."

"This is an unfavorable omen for the coming year," said Uncle Wiggily slowly, "but you may find it hard going under this direction of the stars."

"Many accidents and ordeals are predicted for this month, when many abnormal traits will be revealed among members of every clan, and it will be time to take up arms against all evil and destructive ideas."

"The stars are involved which may be uncertainty and lack of confidence under this planetary government, and shrewdness and astuteness in making decisions."
